

MAGNETEK

***** Firmware Release Notes *****

41330.24 Firmware Release:

- Improved the current scaling feedback when using an External CT board
- An Undervoltage (UV) condition will now trigger a fault during Power Loss Ride Through
- Implemented a delay, on powerup, for the Drive Enable input to prevent nuisance SC faults

Release Date: 8/19/2020

41330.21 Firmware Release:

- First release of the MagnePulse DMC-S2 firmware.

Release Date: 03/20/2020
